BONES OF SKULL FOUND ABOUT
A FOOT UNDER GROUND
BY TEAMSTER.

MAY BE BULLET HOLE IN SKULL

Body Had Evidently Been Buried In
Sitting Posture—Buried for
Twenty-five Years.

The skeleton of a human being was unearched this morning at about 10 o'clock along the bank of the river about 60 rods west of the milk factory by Wm. Decker who was engaged in stripping off the soil to be used in making a fill at the Dr. Ives property on West Boyd street.

Mr. Decker had dug down about a foot when his spade struck some bones, which did not arouse his curiosity until he came to a skull. He then notified Dr. Ives and the doctor with other persons went to the place. The body must have been buried in a sitting posture from the position in which the bones were found. As they were buried in clay soil they were fairly well preserved and it would be hard to tell how long they were buried. From the size of the bones the doctor is of the opinion they must be those of a man. In the back of the skull is a round hole, perhaps made by a bullet, although there were other small holes which may be from the worms eating into the bones.

Old timers claim that years ago when the Indians roamed up and down the river they had a burying ground along the river west of town, but most of the Indian mounds are on the Lawrence farm about a mile west from where the body was found today. The cheek bones are not as high as are found in an Indian and there were no arrows or other articles the Indians usually buried with their dead. The teeth in the skull were well preserved.

Mr. Decker took the skull to his home on the Rock Island road to keep as a relic.

MAY FESTIVAL HAS BEEN POSTPONED

NORTH DIXON SCHOOL ENTERTAINMENT TO BE HELD LATER.

The May Festival, to have been given tomorrow in Assembly park by the high school and grades of the North Dixon schools, has been postponed on account of the inclement weather. It may be held next week, although nothing definite has been decided upon, and it probably will not be held until the weather is more propitious.

George LeFevre of Palmyra was in town today.

International Institutions Voluntary, Not Obligatory

Mohonk Lake, N. Y., May 19 — Theodore Marburg of Baltimore, who was United States minister to Belgium in 1912 and 1913, told the Lake Mohonk Conference on International Arbitration today that the defect in the present machinery for arbitration of international disputes was the lack of the "element of obligation."

There existed at The Hague, said he, several institutions to which the dispute between Austria and Serbia might have been referred. "Our failure to use them proved that the present international institutions are voluntary. They are there to be used only if nations see fit to use them. The element of obligation is entirely lacking."

"The wholesale injustice arising from war," he continued, "its stupidity and horrors, borne in upon us by the present happenings abroad, are making the world ready for some step in advance. It is only a question of how far we are willing to go." The desirable thing is a league to compel the nations not only to bring their disputes before a tribunal but abide

Illinois Senate Votes For Railroad Fare To Members

Also Concurred In Teachers Pension Bill - U.S. Senators Addressed Them

(Associated Press)

Springfield, Ill., May 19.—The senate and house, in joint session today, were addressed by U. S. Senators Sherman and Lewis who urged the passage of the administration deep waterway bill.

The senate passed a resolution providing that members of the legislature be reimbursed at the rate of two cents per mile for railroad fare in traveling between their homes and the capitol. The resolution had already passed the house. A resolution introduced by Representative Boyer, republican, provides for twenty-one round trips. Senators Etzel, Bailey, Pervier and Dailey announced that they would not accept the mileage coming to them.

The senate by a vote of 30 to 6 opposed the Austin bill, fixing the penalty for extortion in effecting settlements of labor troubles. The senate also concurred in the house amendments to the Landee teachers' pension bill. It now goes to the governor.

PLANS TO AID STATE MILITIA

THREE MORE FIELD ARTILLERY BATTERIES PROPOSED FOR I. N. G.

Springfield, Ill., May 18 — Three more field artillery batteries are proposed as immediate additions to the strength of the Illinois National Guard in a bill introduced tonight by Representative Frank Ryan of the Second Chicago district.

It is understood that the suggestion comes from the war department at Washington and has the support of the state administration, and that there are three full complements of men ready to be mustered in if the bill becomes a law.

Two of the batteries probably will be located in Chicago and the third at the University of Illinois.

RECONSTRUCTION OF BRITISH CABINET IS PROMISED BY ASQUITH

SWEEEPING CHANGES WILL BE MADE IN FORMING COALITION GOVERNMENT.

CHURCHILL TO RESIGN IS REPORT

Lord Fisher, With Whom He Broke, Resigned As Head of the Fleet Today.

(Associated Press)

London, May 19.—Premier Asquith announced this afternoon that the government would be reconstructed. Lord Fisher, First Sea Lord, has resigned.

(Associated Press)

London, May 19.—The reconstruction of the British ministry has apparently been decided upon. It is assumed that sweeping changes will be made in the forming of a coalition government. All of the morning papers agree on the government's increasing difficulties, while some of them think the co-operation of the Unionists should be sought.

London, May 19.—Persistent rumors are in circulation in the lobby of the house of commons that a coalition government was about to be formed.

Unionist leaders have held a conference with Premier Asquith and it is stated that the question of a coalition was settled.

According to these reports, the allocation of offices has not been finally determined. It is rumored that A. J. Balfour, former premier, will succeed Winston Spencer Churchill as first lord of the admiralty, the latter taking some other office.

The Pall Mall Gazette, in an article bearing signs of semi-official announcement, says that Mr. Asquith is the only possible premier and then proceeds to announce the rearrangement of the entire cabinet. Arthur J. Balfour, former premier and ex-leader of the opposition is mentioned to succeed Mr. Churchill, the latter becoming secretary of state for India. The marquis of Crewe, present lord of the privy seal, is to become president of the council, while Chancellor of the Exchequer David Lloyd-George might take a new office, which the Gazette says has in reality been created since the war began, namely: minister of war supplies, or, "if Lord Kitchener goes to the front Lloyd George ought to become full minister of war."

Ponar Law is mentioned as chancellor of the exchequer, succeeding Lloyd-George; Austen Chamberlain, secretary of state for the colonies; Lord Reading, better known as Sir Rufus Isaacs, lord chief justice of England, is slated, according to the announcement, as lord high chancellor; Sir John Simon, attorney general is to become lord chief justice and Frederick E. Smith, attorney general. The earl of Derby is also to be included in the new cabinet. The state of his health precludes Lord Lansdowne, but either Lord Milner, Viscount Curzon or Lord Selborne, might be included.

Rupture Is Rumored.

Apparently a rupture has arisen between Churchill, civil head of the admiralty, and the lords of the admiralty, particularly Lord Fisher, admiral of the fleet. Material changes in the cabinet are being discussed as a result, and for the moment the situation is the chief theme of political discussion. Plenty of rumors are consequently in circulation, but the ministers are saying nothing.

The resignation of Lord Fisher is considered probable by the Daily Telegraph, while the Times is among the newspapers that mention that Lord Fisher has not attended the admiralty for two days.

"The government presumably is anxious about the character of its own control of the war," says the Times, "which is being subjected to widespread and violent criticism both in public and in private."

Lord Fisher is suggested by the Times as the best available seaman for the head of the admiralty, and says that there are objections to having a layman at the post.

VAG TO SERVE OUT SENTENCE

Late yesterday afternoon Sheriff R. R. Phillips and Deputy Frank Schoenholtz brought to this city from Amboy in a machine Joseph Muller, who had been fined \$25 and costs before Justice George Hines on a charge of vagrancy, and not having the funds to set him was brought to this city to serve out the fine in jail.

The infant son of Mr. and Mrs. Charles Burke is very ill.

While each battleship of the Atlantic fleet came in for its share of attention during the review in the North river, the center of interest was the super-Dreadnought Wyoming, the flagship of Admiral Fletcher, in command of the Atlantic fleet. In the accompanying illustration are shown one of the jacks aboard the Wyoming and the ship's mascot astride one of the twelve inch guns of the Dreadnought.

RUSSIAN DEFEAT IS MOST SERIOUS

INFORMATION SHOWS IT WAS ALMOST A COLLAPSE —STEAMER SUNK

WAR SUMMARY.

(Associated Press)

Information from various sources indicates the defeat of the Russians in Galicia has reached serious proportions. A British correspondent at Petrograd admits the Russians have been forced to retreat along the 200-mile front, and in one case it is said the situation seems like a collapse to the Russian forces. The statement is made, however, that the German forces have not won a victory of decisive strategic significance and that their losses have been enormous.

BRITISH STEAMER SUNK.

The British steamer Brus-Sree, of 2500 tons, 374 feet long, was torpedoed in the English channel. The crew was saved.

A Norwegian steamer was chased away from the scene of the sinking boat by a submarine, but returned later and rescued the passengers and crew of the Drumcree.

PAID AWFUL PRICE.

The allies paid a fearful price for the ground gained May 8 at Achi Bab on the Gallipoli peninsula.

STEAMER IS RAMMED.

Quebec announces that the little government steamer Christine went down last night off the Island of Orleans with a loss of eight lives. The announcement adds that it was rammed by a Canadian submarine, the manner not being disclosed.

FORMER PALMYRA MAN IS HONORED

EDWARD WHITCOMB AWARDED GOLD MEDAL BY NEBRASKA PRESS.

Edward Whitcomb lived in Palmyra township many years ago and for over two years taught school there. He was well thought of as an instructor. Many of the older residents of that section will remember him. The following is taken from a Nebraska paper concerning his record since he left Palmyra:

"Edward Whitcomb of Friend was acknowledged the dean of Nebraska newspaper men, after considerable research and investigation in a Pioneer Newspapermen's Contest. He was awarded a gold medal for the longest continuous service on one paper in Nebraska. He has published every issue of the Friend Telegraph since February 1, 1877, a period of thirty-eight years."

CIRCUIT COURT IS ADJOURNED TODAY

JUDGE HEARD WILL HEAR NO MORE CASES UNTIL JUNE 24TH.

Most of the work for the present term of the circuit court has been cleaned up as far as the cases were ready for trial. On account of many of the attorneys being engaged in the hearing in the county court in connection with the annexation of more land in the Inlet Swamp district they asked to have cases in which they were interested put over for the term. This morning Judge Heard adjourned court until Thursday, June 24, at 1:30 p. m.

A few chancery matters were taken up today. In the case of Excelsior Supply Co. vs. C. W. Hamilton, judgment was entered against the defendant for \$295.80 and costs. A decree was granted in the suit brought to quiet title in the case of John E. Bauer vs. Jacob Augustine et al.

Tuesday afternoon testimony was heard on the application for a decree for divorce brought by Louise Leffel against her husband, Wm. Leffel. According to the bill filed they were married in East Moline on July 25, 1914, and she alleges that on account of extreme and repeated cruelty she has to leave him. The decree was granted.

DELIVER ADDRESS IN FORRESTON

County Superintendent L. W. Miller has been tendered an invitation to deliver the address at the commencement exercises of the Forreston high school to be held Thursday evening, June 3. Prof. Miller has accepted the invitation and he will no doubt favor the graduates with a very able address.

IS NOT RECOVERING VERY FAST

Harry Wedon, the young man who was injured about three weeks ago when the automobile he was driving went over the bank on the Peoria road where the same crosses the Illinois Central tracks, is not getting along as well as his friends had hoped for. It is feared that he sustained internal injuries.

Germany Willing To Allow Passengers To Leave Boats

Washington Learns Of Reported Attitude Of Kaiser's Government

(Associated Press)

It was learned today that Germany is willing to have her submarines give ample time for passengers and crews to leave merchantmen provided the vessels are unarmed, or if passengers and contraband traffic are separated. This position is looked upon favorably here provided it does not infringe on the rights of Americans to travel the seas anywhere on enemy or belligerent unarmed ships. Germany's reply will not be completed for a week.

REJECTED ALL BIDS ON RAILROAD WORK

OVERHEAD CROSSING WILL BE DELAYED—NEW BIDS ARE ASKED.

On account of irregularities existing in several of the bids submitted for the work of making the fill and cutting down the rock hill at the McRoberts crossing west of this city, opened on Tuesday afternoon by the road and bridge committee of the board of supervisors at the court house, all bids were rejected and new bids will be re-advised for. This will cause considerable delay in starting the work.

Bids had been asked for all of the work and some of the bidders simply submitted a bid on portions of the work. Contractor Drew of Tampico was the lowest bidder on making the fill on that portion of work on the railroad right of way! Lennox & Son of this city were the lowest bidders on the fill north of the track in Dixon township, while Bert Wallace of this city had the lowest bid on cutting down the rock hill in South Dixon township. He stipulated that his entire bid must be considered, and not a portion.

LIBERTY BELL WILL GO OVER ROCK ISLAND

No liberty bell for Dixon.

The announcement was made this morning from Philadelphia that the great bell would go across Illinois on its way to the coast over the Rock Island route and would not stop in the state only at Chicago.

This announcement will effectually dash all hopes of Dixon as well as the other cities along the route of the Northwestern which had deluged the Philadelphia city council with applications to have the great relic stop at their towns.

Boosters for the Lincoln Highway have been circulating a petition addressed to the Philadelphia council to have the bell taken from Chicago to Clinton on a motor truck, guaranteeing its safe arrival at the end of the auto journey.

The official announcement today from Philadelphia puts an end most effectually to all rumors and efforts to have the bell stop.

Government Extends Postal Saving System In New Plan

Every person in the United States 10 years old or over may open an account in a postal savings bank after July 1, according to an instructive leaflet on the postal savings system just issued by Postmaster General Burleson. This important extension of the service will be made possible by permitting persons living in communities so sparsely settled as not to justify the designation of their local post office as regular postal savings banks to open accounts by mail.

Governor Dockery, Third Assistant Postmaster General, who has direct supervision of postal savings, was so impressed by appeals from all over the country to open postal savings accounts by mail that he took up the task some weeks ago of working out a feasible and safe method for meeting a demand well illustrated in a letter from a Saline County Missourian, who resides many miles from a postal savings bank.

"Having a few hundred dollars saved from fifty years of hard and assiduous labor and skimping economy on the part of my wife and myself, we concluded to deposit in the postal savings bank of —. We wrote the postmaster at that place and received reply to the effect that none but patrons of that office could deposit in the office which is very discouraging news to us. Our little farm is not large enough to support us and land is so high that it is impossible for us to buy more with what little we have saved and we are so old that we can't labor much now and we would be glad to lay by at least enough to put us away in decency."

The New Plan.

AUSTRIA SAID TO HAVE MADE CONCESSIONS

HOWEVER, MILITARY PREPARATIONS CONTINUE IN ITALY AND AUSTRIA

ASK U.S. EMBASSY TO WORK

Disputing Countries Ask America To Look After Diplomatic Interests

(Associated Press)

Washington, May 19.—Austria and Italy have asked the United States to care for their diplomatic interests in Rome and Vienna respectively in the event of the severance of diplomatic relations. The state department has instructed the United States embassies at the two capitals to be ready to do so.

May Ask Switzerland.

Owing to the feeling in the United States over the Lusitania affair it is reported that Germany will ask Switzerland to look after its interests at Rome.

Washington, May 19.—Austria is said to have offered further concessions in the hope of keeping Italy out of the war. However, every preparation for hostilities has been made and the German and Austrian ambassadors are ready to leave Rome.

Italian railroads have been placed under military control and it is expected that the final decision will be made known after parliament meets tomorrow.

UPRISING AT POLA.

It is reported that forty people were killed and several hundred were wounded by police and Austrian troops in an uprising at Pola.

Rome, May 19.—The Giornale d'Italia, the leading newspaper of Italy, announces that Prince Von Buelow, the German ambassador, and Baron Von Macchio, the special ambassador of Austria, have demanded their passports. The newspaper adds that the staffs of the German and Austrian consulates will leave Rome Tuesday evening.

Rome, May 19.—Parliament will be opened Thursday beyond doubt, and it is considered likely that Premier Salandra will then make important announcements, possibly proclaiming mobilization. Italy's green book, explaining the failure of the Austrian and Italian negotiations, will be issued at that time and distributed to members of parliament so that no explanations are likely from Baron Serrino, the foreign minister.

Ambassadors Still at Posts.

Although special trains are held in constant readiness to remove the Austrian and German ambassadors, no move toward their departure has been announced yet. The Italian government will not recall its ambassador at Vienna and Berlin and it is therefore considered likely that Ambassador Von Buelow and Ambassador Macchio are merely awaiting the opening of parliament. At any event the numerous senators who are friendly with Ambassador Von Buelow are still intriguing in his behalf and it is not unlikely that some surprise will be sprung at the eleventh hour, though anything of this nature is doomed to fail.

PONDEROUS PERSONAGES—SIR ISAAC NEWTON.

Sir Isaac Newton was born in England in 1642—at which time astronomy was still a vague and puzzling science, and the mariners frequently missed their guess as to where they were, at sea, by fifty miles or more in spite of their best calculations.

Newton was a farmer's son and a poor student until he succeeded, one day, by severe effort, in kicking the boy who stood next above him in class. This awakened his ambition and he soon led the school.

However, this method of acquiring learning is not at all certain, and there is little chance for Jack Johnson becoming a college president.

Newton was very ingenious as a boy, making water clocks, windmills, and a curious, four-wheeled wagon run by boy power, which if he had appreciated it, might have made him the Henry Ford of his time. He understood geometry naturally and finally went to Cambridge University, and began to lap up the most abstruse efforts of the best mathematicians of the day.

Night after night, when other students were enjoying themselves, New-

ton sat up doing quaint little problems which required half an acre of figures and trying to calculate the exact course of a bob-tailed comet of medium draft, would take if suddenly accosted in a lonely locality by a fourth rate satellite traveling under forced draught. When he was graduated he continued these diversions, and in 1683 and '85 he published, in three volumes, a book called "Principia," which explained to the world what the attraction of gravitation was, and enabled man to understand for the first time the customs and habits of celestial bodies.

The book made Newton very famous and became a best seller though it had no heroine, was perfectly moral and contained very indifferent illustrations. In some ways the old timers seemed to have more sense than we have.

Newton afterwards became chancellor of the exchequer, helped revise the coinage and produced many fascinating little booklets full of problems that would drive an ordinary college president insane. Throughout his life he was a friend and protégé of Halley, proprietor of the celebrated Halley's comet. He died at the age of eighty-five, having done more for astronomy and navigation than any man of or since his time.

Newton was twice elected to parliament on the strength of his wisdom. Some means of preserving this curious custom should be adopted in this country.

SAFETY FIRST HAS BROUGHT RESULTS

REPORTS SHOW GREAT DECREASE IN LOSS OF LIVES ON NORTHWESTERN

A statement just prepared by the Central Safety committee of the Chicago and Northwestern Railway Co., gives out the following interesting information, illustrating the remarkable results of the safety movement on its line.

July 1, 1909 to May 1st, 1910, killed, 98; injured, 7354.

July 1, 1910, to May 1, 1911, killed, 98; injured, 6138.

July 1, 1911 to May 1, 1912, killed, 89; injured, 5061.

July 1, 1912 to May 1, 1913, killed, 57; injured, 3361.

July 1, 1913 to May 1, 1914, killed, 57; injured, 5057.

July 1, 1914, to May 1, 1915, killed, 33; injured, 4430.

With no employee killed in April 1915.

The following comparison is made to show the decrease in killed and injured for 58 months ending April 1915 and compared with 58 months for period ending June 30, 1910, before "Safety First" committees were organized.

201 fewer employees killed, 38 per cent.

12674 fewer employees injured, decrease, 28 per cent.

1190 fewer passengers injured, decrease 24 per cent.

214 fewer outsiders killed, decrease, 19 per cent.

244 fewer outsiders injured, decrease, 9 per cent.

The above results were obtained with a mileage of 8423 miles April 30, 1915, as against 7,953 miles June 30, 1910.

HOW A FRENCH GENERAL KISSES A LIEUTENANT

General Reverard and Lieutenant Kula

Generals in the United States army do not kiss lieutenants, but the French government that the decoration of the Legion of Honor was awarded him. General Reverard, before a large group of soldiers, presented the decoration and pinned it on the hero's coat. Thereupon, in the French fashion, he planted a kiss on the cheek of the lieutenant.

BOARD ORDERS PART PAYMENT FOR SEWERS

CONTRACTOR LLOYD HAS COMPLETED THREE IMPROVEMENTS FOR CITY.

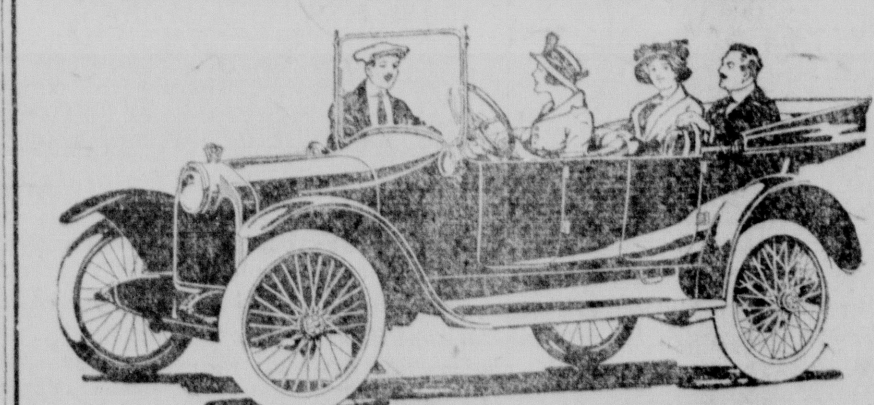

A meeting of the board of local improvements was held this forenoon at 11 o'clock at which time the final estimates of the three sewer contracts, on Crawford avenue from Fourth to Seventh streets; on Fourth street from Depot to College avenues, and on Jackson avenue from Seventh to Fourth streets, were approved and warrants in part payment were ordered drawn in favor of Contractor E. H. Lloyd. The requests for several sections of sidewalk in various parts of the city were received and the board will investigate and doubtless an ordinance will be drawn calling for the construction of the walks.

DASHEEN MAY TAKE PLACE OF POTATOES

NEW TUBER IS BEING DEVELOPED IN FLORIDA—SAID TO BE FINE

We are told that the dasheen, a comparatively new vegetable food product threatens to take the place of the common and valuable potato. The dasheen is now being cultivated in Florida with much success and is said to be adapted for easy culture in the northern states as is the sweet potato.

The dasheen stalks grow four or five feet tall. Each hill contains one or two large globular bulbs which grow to a weight of four or five pounds; round them are clustered numerous tubers, both being much like the potato in composition but contain less water. One plant in good soil produces from four to ten pounds of tubers. The product has a very pleasant, nutty flavor when cooked and is easily digested.

The dasheen is prepared for the table in the same way a potato is, and also the blanched shoots can be cooked and prove very palatable, much like asparagus. The leaves of the tender plant are a good substitute for spinach.

WANT TO HEAR OF IRISH REGIMENT

MEMBER OF PARLIAMENT ASKS GOVERNMENT FOR INFORMATION

London. (Correspondence of the Associated Press) A desire to hear more about the Irish regiments and what they are doing at the front has been expressed in Parliament.

"We have all heard about the London Scottish; why have we not heard of the London Irish?" was the question put to the government, and the inquiring member added emphatically, "It even appears that some people are not aware that there is a London Irish. There is, however, such a body, which forms one of the battalions of the London Regiment, and it is now at the front. Why is it, then, that whenever casualties occur in the London Scottish, which is a part of the same regiment, the designation 'London Scottish' is appended and the 'London Irish' is left out?"

The government spokesman hazarded the explanation that perhaps it was because the London Scottish was an old Territorial battalion and the Irish Rifles a new body.

"Oh! dear, no!" replied the Irish member. "Long before the present war there was a reference to this battalion in the Official Army List."

The Under Secretary could only assure the honorable member that the distinction made must be fortuitous and not intentional.

Phidian Art Musicales
Last evening at the home of the latter, Mrs. Charles A. Todd and Mrs. C. B. Morrison entertaining, the Phidian Art club held its annual spring musicale, given under the direction of Mr. A. H. Stoddard, assisted by five young ladies, four of them from Sterling, where Mr. Stoddard has large piano classes.

The program consisted of piano, violin, and voice selections, interspersed with readings and was one of choice entertainments. Miss Hoover at the piano played with brilliancy and spirit. Miss Lantz, at the same instrument, with delicacy and refinement and expressive execution. Miss Gwendolyn Massey, the reader, a pupil of Mme. Fink of Clinton, is a very gifted reader. Miss Massey's young sister, Geraldine, a little girl just entering her teens, showed unusual ability in violin playing, surpassing many adult players. Her instrument is over two hundred years old and very sweet in tone. The singer on last evening's program was Miss Helen Bacharach of this city, who has a beautiful contralto voice, splendid in volume, even and full in tone. Miss Bacharach's perfect enunciation and ease of execution gave to her numbers a perfection unusual in

so young a student. The program in full follows:

Where Presidents Name Governors.
Alexander Hamilton was defeated in his attempt to give the president of the United States the power to appoint the governors of the states. In Spanish-American countries his ideal is generally realized.

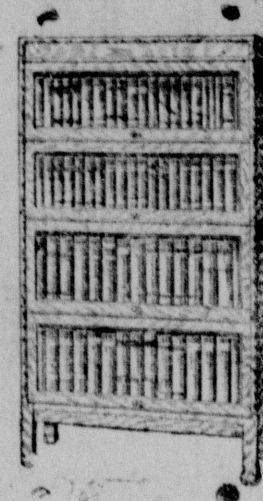

The president of Colombia appoints the governor of each department, and the governor appoints the prefects and mayors. The president of Peru appoints the prefects, these the sub-prefects, and the latter name the governors. Reports flow up this official staircase, and orders flow down, so that the whole administration dances to Lima's piping.

In Chile there is a complete chain from president through intendant, governor and subdelegate to inspector. There are municipal councils for cities, but nowhere is there a place for the county, as we know it, electing its own prosecutor, judge and sheriff. Edward Alsworth Ross in Century Magazine.

The Bulls Went Astray.
The growth of bulls is an important industry to Holland, as from Haarlem the markets of the world obtain their supply.

It is told of Said Pasha, who had a great love for flowers, that he placed an order in Holland for a choice assortment of these bulls, for which he paid \$5,000. When the bulls arrived his "secretary of the interior," who received them, not knowing of the bull order, sidetracked them to the kitchen. Soon after their arrival the pasha was to give an important banquet, and his chief cook, wishing to serve an especial treat, grilled the new variety of onions and served them hot. Evidently as an article of food they did not prove a success since the only comment the recorder of the incident made of the record was that pasha's interest in gardening received a severe body blow. failure. This is especially so now as the cabinet is practically supported without dissent by parliament. The secretary of the Austrian embassy to the holy see called at the foreign office and arranged for the departure of the Austrian and German diplomats accredited at the vatican. They will be provided with special trains.

Giolitti Leaves House.
Ex-Premier Giolitti, who has been in hiding at his residence for three days under police guard, surreptitiously left the house Monday evening with his son-in-law, who had been smuggled in. The announcement that he had departed for Turin was greeted with cheers. There remains no doubt but that his followers have been utterly defeated and must needs now support the government.

More Demonstrations for Allies.
There was another pro-war demonstration at the capital, where 50,000 citizens gathered bearing the flags of Italy, the Trentino, Trieste, Dalmatia and of the allies. The colors were repeatedly cheered and the shout for war was almost constant. There were also more shouts of down with Austria and Germany and death to Giolitti.

The mayor and Prince Colona, surrounded by aldermen, wearing officers' uniforms, appeared on a balcony of the senatorial palace, where the Italian flag and the banner of Rome were hoisted. The mayor kissed the Italian flag and then delivered a speech in which he said that empty words are now useless.

War preparations are going forward with such rapidity that all the automobiles of the ministers excepting Premier Salandra, have been commandeered. Meanwhile dispatches from Trieste confirm the revolutionary character of the uprisings there and say that the presence of the military has even failed to quell the rioters. The new Russian Ambassador, M. De Giers, was received by King Victor Emmanuel and presented his credentials. He bore a letter from Emperor Nicholas congratulating the king on the stand taken by Italy.

Dutch Legation at Vatican.
It is now declared that Monsignor Wilhelm Nolens, the Netherlands' prelate now in this city, is here to re-establish the Dutch legation at the vatican, a mission which was suppressed when diplomatic relations between Holland and the vatican were interrupted by the failure of the Netherlands minister to invite Pope Leo to the first peace conference at The Hague.

A general strike was proclaimed by the Socialists at Turin and war demonstrations are in progress.

OPTIMISM AIDED BY NEW INCIDENT

Germany Temporarily Suspends Submarine Activities.

MUZZLING OF PRESS HELPS

Failure of Official Organs to Even Print President's Protest and to Comment on It Seen as Indication Government Wants no Popular Pressure.

Washington, May 19.—The surprising statement that the German submarine campaign has been suspended for a week and will remain suspended until Germany has replied to President Wilson's note was made in a responsible quarter here today. This important information was cited as the reason why in German quarters here no confidence was placed in the reports that an effort had been made to torpedo the Anchor liner Transylvania.

Washington, May 19.—Officials here are still looking to Germany for some sign as to what response it will make to the president's demands regarding the German submarine operations. Ambassador Gerard has sent nothing giving any indication of what the German attitude is to be and officials here consequently are dependent upon what is being said in German quarters here and the rather meagre press dispatches from Germany.

The action of the German government in withholding the American note from publication and its instructions to the German press not to discuss the communication is interpreted by many in Washington as a favorable sign. According to this view the Berlin government muzzled the press in order that it might be free to decide upon a course without any pressure from public opinion.

THE STORE CLOSING PROBLEM.

Dixon merchants are trying to reach a common understanding regarding the closing of the local stores on Wednesday evenings. Many of the merchants desire to close Wednesday evenings and have Saturday the only open night, while others contend that Wednesday evening is a good business night and that it is an accommodation to the trading public to stay open on that night.

There are good arguments on both sides of the question. The men who wish to close say that there is only so much business anyway and that it will all come, one time or another, and they use the further argument that life is short and sweet and should not be used up entirely in work if it can be helped and they therefore feel that they and their clerks should not be required to work in the stores more than one evening a week.

The retailers who desire to keep their stores open Wednesday nights as well as Saturdays declare that while the local competition is of one mind and is willing to close up, the competition in nearby towns has not been reckoned with and that trade will go away from Dixon which might otherwise be secured here. Stores in Polo, Amboy, Oregon, Rochelle, etc., they declare, are open several nights a week and in these days of automobiles distance does not amount to much to the farmer and his wife who want to take a ride in the cool evening air and incidentally to do some shopping.

The men who want to stay open Wednesday nights say that there is large part of the trade, particularly men, who cannot do their trading in the day time because they are working, and that the one night, Saturday, does not suffice for their needs. Pay day comes on Wednesday and stores that stay open that night profit by it greatly, is their claim.

Of course the merchants of Dixon are desirous of accommodating the patrons of their stores to any reasonable extent, and it has been suggested to the Telegraph that an effort be made to find out the sentiment of the people of this section.

Is it any great accommodation to many of you to have the Dixon stores open any other evening than Saturday? Write a letter to the Editor of the Telegraph, and state your views on the subject. Sign your name to the letter and it will be published in the people's column of this paper. The merchants would like to know how the people of this community feel regarding the closing of the stores on Wednesday evenings.

THOMPSON FOR LOWDEN.

The Rockford Register-Gazette, in a recent editorial, says:

Mayor William Hale Thompson and his cabinet advisers met in the Wisconsin woods yesterday and decided to give the solid backing of the new Chicago city administration to the candidacy of Col. Frank O. Lowden, of Ogle county, for the republican nomination for governor. The momentous foregathering took place at the country seat of former State Senator Albert F. Clark, at Eagle Lake, Wis., which is one of the finest country estates in the Badger state. The former state solon is said to be cast wistful glances at the state treasurer's job and he would prove a very strong candidate, should he enter.

Col. Lowden was among those invited to enjoy the hospitality of Senator Clark. He told his conferees that he would not enter the campaign now for anybody or any cause, if the primary for the state nominations remains as is now provided in the law, one year from next September. If, on the other hand, the legislature carries out the recommendations of the elections committee and consolidates the primaries for next spring, thus effecting a great saving to the tax payers of the state, he was ready to start at any time. He also gave emphasis to the fact that he is not the candidate of any faction, but that he is willing to submit his candidacy to republican voters of the state and be a candidate of the whole party, if nominated. He will accept help wherever he can get it and anything the ward committeemen of Chicago, now supporting the city administration, can do for him will be gladly accepted and duly appreciated.

With the Thompson followers out in the open for Lowden, northern Illinois practically solid for him and southern Illinois stronger for him than it has been for any aspirant for an office in a generation, it is difficult to see how any sort of a combination whatever can stop his nomination next year.

Col. Lowden's candidacy will weld together many elements in the party, both in Chicago and out in the state, not heretofore affiliated. He will go straight to the people in seeking the nomination under the direct primary and no one can be accused of being a "boss."

Moreover, after Col. Lowden is nominated and elected he will give to the people of this state one of the greatest administrations Illinois has ever had.

THE PROUDEST MOMENT.

Oh, no! A fellow's proudest moment was not the time he came out on top in his first scrap with "the kid next door." Nor was it the first time he "saw" Mary Jane home from the party. Nor, again, was it when she "named the day," says the Aurora Beacon-News.

It wasn't when he made his biggest business deal; got his largest raise; became a partner in the concern and was paying an income tax.

And while this, too, was a proud moment, the proudest of all was not when his first born came, nor was it when the youngest first lisped "dada."

All these were big moments, moments "most every fellow remembers long and happily, but the real proudest moment was the time when—

He wore his first pair of long pants!

THE "HARMLESSLY" INSANE.

Don't quarrel with the grocery boy. A Chicago woman did and just to get even, he killed her and then killed her little boy. The youthful murderer is said to be "a little off." There are too many individuals who are believed to be harmlessly unbalanced, running around loose. Every once in a while one of them murders a woman. It would be safer to have these unbalanced persons cared for before they go violently insane, which is liable to occur at any time.

WITH AN IMPASSIONED
CALL TO ARMS.

JOHN BASSETT MOORE ALSO TALKS

Former Counselor of State Department
Tells Facts of Much
Interest.

(Associated Press)

Mohawk Lake, N. Y., May 19—President Hibben of Princeton University stirred the Lake Mohonk Conference on International Arbitration by talking issue with the pacifists who favor disarmament by advising "wise preparedness of our military forces in the United States."

"In the high tension of international suspicion it is most significant that almost any chance may precipitate for us a national catastrophe, and if it should come what shall we say? Peace at any price? By all means let us say the price which can buy peace; restraint of passion, sacrifice of material wealth and every convenience and comfort. But there are some things which can not buy peace, and if we sacrifice them in order to secure peace, the peace thus sought becomes for us the veriest torment of a living hell. We dare not trade our honor for peace." Hibben did not name any belligerents. Never had the Lake Mohonk conference heard such a call to arms.

(Associated Press)

Mohawk Lake, N. Y., May 19—John Bassett Moore, president of the Lake Mohonk Conference on International Arbitration made "International Cooperation" the subject of the address which he delivered at the conference today, and was given close attention in view of the fact that as former counselor of the Department of State Mr. Moore has had much practical experience in handling matters of international concern.

Mr. Moore referred to the fact that the address which he delivered before the Conference last year had been reported as having a pessimistic tone in regard to the value of present treaties of arbitration.

"Upon this interpretation," said Mr. Moore, "perhaps no comment is necessary beyond that which is furnished by the tragic events that have since occurred." "These events inculcate the importance of facing candidly the realities of life and the grave problems which they involve. The tendency of the human mind, running in advance of results, to treat as an accomplished fact that which it desires to bring about, may often exert in the affairs of life a useful and helpful influence; but when, following the 'illusions of hope,' it bids us close our eyes to actual conditions and to rely in comfortable security upon safeguards that either do not exist or are so defective as to be practically non-existent, it may become a peril as well as a hindrance to wise and essential effort."

Pointing out that although a world court had been established at The Hague sixteen years ago, the spirit of cooperation has been lacking to support it and make it effective, Mr. Moore discussed some necessary steps to secure international cooperation.

During the past ten years, for instance, we have often been assured that what the world needs is an arbitration tribunal and an 'international police' to enforce its awards. This statement seems to disclose both a misconception of fact, and an incomplete grasp of conditions. The misconception of fact is the supposition that the evil from which the world today suffers is the disregard of arbitral awards. In reality, arbitral awards have been remarkably well served. The actual problem with which the world is confronted is how to induce nations to accept not the results but the process of arbitration.

"The proposal for an 'international police' requires a more extended examination. The underlying idea of an international police appears to be that of a force to compel all states without regard to their strength or weakness, to observe the international law, and, when so extended, the proposal is at once seen to be closely connected with the question of the limitation, or of the development, of the case may be, of national armaments. How large a force, it may be asked, would have to be maintained in order effectually to hold in check any of the great powers of Europe, if their national armaments were continued on the scale of the past twenty-five years? It is manifest that it would have to be practically overwhelming, unless it were merely to have the effect of the

DREAMERS AND WORKERS.

The dreamers sit and ponder on distant things and dim, across the skyline yonder, where unknown planets swim; they roam the starry reaches—at least they think they do—with patches on their breeches and holes in either shoe. The workers still are steaming around at useful chores; they always save their dreaming for night, to mix with snores. They're toiling on their places, they're raising roasting ears, they are not keeping cases on far, uncharted spheres. They're growing beans and carrots, and hay that can't be beat, while dreamers in their garrets have not enough to eat. Oh, now and then a dreamer is most unduly smart, and shows he is a screamer in letters or in art; but where one is a winner, ten thousand dreamers weep because they lack a dinner, and have no place to sleep. There is a streak of yellow in dreamers as a class; the worker is the fellow who makes things come to pass; he keeps the forges burning, the dinnerpail he fills, he keeps the pulleys turning in forty thousand mills. The man with dreams a-plenty, who lives on musty prunes, beside him looks like twenty or eighteen playthings.

CURRENT COMMENT

Montreal Daily Star: For a decade past complaints have been made in New York against the amount of property which is exempted from real estate taxation. Under the law, private property in the city is exempt to the amount of three hundred and eighty millions; the practical effect of this is to increase all other tax bills to about 5 per cent. What is known as the Sullivan bill proposes to completely remodel conditions.

SUMMER 1915, SMARTEST HOSIERY SEASON

Because the skirts of dresses and suits are correct this season only when worn short, designers have of necessity given special attention to the hosiery and as a consequence this is the smartest hosiery season. The Hosiery Section contains every color, quality and weight in silk hosiery--the kind that is not merely all silk but stands the test of wear.

CITY OF AURORA TO REVIVE CURFEW

SOON AS BELFRY IS REPAIRED KIDS MUST HEED WARNING.

Aurora, May 18.—A 9 o'clock curfew law in Aurora is to be revived. Just as soon as repairs can be made to the city hall belfry the big bell will be sounded on the stroke of 9 every night, becoming a warning to children under 16 years to scurry from the streets for home. There will be little music in the bell for the young roller skaters who have swarmed the forty miles of paved streets in the late months.

GOVERNMENT EXTENDS POSTAL SAVING SYST.

Continued from Page 1

counts by mail an intending depositor residing where there is no regularly designated postal savings bank, will apply to his local postmaster who will see that necessary identification data is prepared and forwarded to a nearby postoffice authorized to accept deposits. The intending depositor will then be given permission to forward his first and subsequent deposits by money order or registered mail direct to the postmaster at the banking point for which receipts or certificates will be issued. He may withdraw all or any part of his postal savings by mail and on demand together with any interest that may be due him.

The new leaflet points out that any person ten years old or over may open an account in his or her own name; that an account may be opened by a married woman free from any control or interference by her husband; that postoffice officials are forbidden to disclose to any person, except the depositor, the amount of any deposits; that withdrawals may be made without previous notice, and that the government guarantees to repay all deposits on demand with accrued interest.

BABY'S FUNERAL THURSDAY

CORPORAL PUNISHMENT FOR THEFT OF RICKSHAW

CHINESE AUTHORITIES ADOPT DRASTIC MEASURES FOR CRIME.

Peking, May 4.—Correspondence of the Associated Press.—Corporal punishment for stealing a rickshaw was one of the recent orders of the Chinese Ministry of Justice which has been approved by President Yuan Shi-kai.

The order, as translated in the Peking Gazette, reads: "It was originally intended that corporal punishment should be meted out to those offenders who are devoid of the sense of shame. However these regulations failed to make provisions for persons usurping another's rights of ownership. In Peking alone there have been several cases of rickshaw coolies usurping the right of ownership of rickshaws belonging to the rickshaw shop. If the offender in respect of such cases should be punished with mere imprisonment, there would be crowded prisons, not to speak of the starvation of the families of these offenders. Therefore, we hereby suggest that an article be added to the said regulations providing corporal punishment for the above mentioned cases.

"The President's Reply: The above proposal is hereby approved, and the said Ministry is to enforce the same. The Law Compiling Bureau of the Cheng Shih Taag is to take note of the above."

YAQUI INDIANS DECLARE WAR

Take Pumping Station Near Rail Shops, Valued at \$10,000,000.

On Board United States Steamship Colorado, off San Diego, Cal., May 19.—Yaqui Indians who have been besieging white settlers in the State of Sonora, Mexico, issued a proclamation declaring the Yaqui nation at war with Mexico.

They have captured the pumping station at Batanatel, near Empalme, where are located railroad shops valued at \$10,000,000.

WOOD PRESERVATIVE TO BE MADE IN U.S.

AMERICAN MANUFACTURER IS REMEDYING CONDITIONS CAUSED BY WAR.

Washington, May 19.—Owing to a falling off since August 1 of nearly 30 per cent in shipments of creosote from England and Germany, whence comes all but a small part of the imported oil used by wood preserving plants in this country, American manufacturers have taken steps which, says a report compiled by the forest service, it is estimated will increase production of the domestic article by about 25 per cent. The imported oil ordinarily forms about 65 per cent of the total used in the United States, where creosote is the most important wood preservative.

The statistics gathered show that wood preserving is one of the most rapidly advancing industries in the country. In 1895 there were fifteen plants in the United States; in 1914 there were 122 plants of all kinds, 100 being of the pressure-cylinder type. Ninety-four of these plants last year used more than 79 million gallons of creosote oil, more than 27 million pounds of dry zinc chloride, and nearly two and one-half million gallons of other preservatives, such as coal tar and crude oil, treating a total of nearly 160 million cubic feet of timber, an increase of about seven million cubic feet over 1913, and of 35 million cubic feet over 1912.

Railroad Ties.

The most important consumers are the large plants in which railroad ties are treated. The preservatives materially lengthen the ties' period of service, lessen the labor cost involved by renewal, and decrease the drain upon forests due to tie cutting. To some extent the treatment of fence posts and other forms of farm timber is being taken up, and inexpensive apparatus and method having been devised by the department of agriculture; but as yet the use of wood preservatives by farmers is on too small a scale to have any importance in the total and the practice of treating the telephone poles is in its incipency in this country.

"With the rapid advance of this industry as a whole," says the report, "the choice of preservatives has been fairly well established, but the kinds and classes of materials to be treated need development along certain lines. In Germany and other European countries practically all cross ties laid by the railroads are treated with chemicals or preserving oils. In this country but thirty per cent of the ties purchased by the railroads are subjected to such treatment. The number of poles treated in this country is but a very small per cent of the total in use."

Dramatic Notes

FAMILY THEATRE.

Tonight at the Family the feature will be Daniel Frohman's presentation of "In the Bishop's Carriage," Miriam Mickelson's great story, with Mary Pickford in the leading role. The picture is produced by the famous Player's Film company, and it is declared to be one of the best of the year.

The second part of the program will be Hearst's Weekly, showing scenes from the European war, the departure of members of congress from Washington, Bresnahan and the Chicago Cubs, and other features and notable events.

PRINCESS THEATRE.

Tonight the Princess will show a two reel Majestic feature entitled "The Comeback," with Elmer Clifton and Billie West in the leading roles, a story in which a man becomes an outcast on account of trying to defend the name of a girl. This feature is very cleverly told by a fine cast of players.

Also a Reliance drama entitled "At the Hour of Eleven," with Wm. Williams and Sarah McCombs in leading roles, in a wonderful drama of love and intrigue. The last reel is a Princess drama entitled "A Scientific Mother," with Mignon Anderson and Jack Doughty in the leading roles. A story of the clever slam at baby culture.

ADVANCE AGENT OF MILLER SHOWS HERE

M. A. White, the advance agent of the A. B. Miller greater shows, is in town today making final arrangements for the coming of the shows the week of May 24. The site for the carnival has not yet been chosen. Mr. White assured the promoters that it is one of the largest carnivals on the road, and they have 35 carloads of equipment, have their own horses, fifteen shows, the largest Merry-go-round of any carnival company on the road, a large Ferris wheel, and two special concert bands which will play at 6:30 daily.

OREGON JURIST FOR JUDGE OF STATE SUPREME COURT

JUDGE JAMES H. CARTWRIGHT.

The election of judge of the supreme court from the 6th judicial district will take place on Monday, the 7th day of June.

Judge James H. Cartwright of Oregon, Illinois, present Chief Justice of the supreme court is candidate for re-election. Judge Cartwright was elected to the circuit bench in 1888 and in 1911 because of his great ability was by the supreme court assigned to duty in the Appellate court of the second district at Ottawa. His learned opinions, while a member of this court, will be found in volumes 40 to 62, both inclusive, of the appellate court reports.

In 1895 Justice Cartwright was elected to the supreme court to fill the vacancy caused by the death of that great and eminent jurist, Joseph M. Bailey.

Justice Cartwright's profound knowledge of the law will be more fully appreciated upon reading and studying his learned and logical opinions, appearing in volumes 160 to 267 of the supreme court reports of the state of Illinois. Judge Cartwright is one of the most able jurists of the United States and his opinions adorn the pages of American literature and learning.

Judge Cartwright is not a politician, but a just and fearless judge. The people of the 6th judicial district cannot afford to lose the services of this great jurist of the supreme court. Therefore, the voters should take great interest in the election and be at the polls on Monday, the 7th day of June, and return Judge Cartwright to his present position on one of the most learned courts in the United States.

MAYOR REVOKES LICENSES

Fifteen Saloons at Springfield, Ill., Put Out of Business.

Springfield, Ill., May 19.—Mayor Charles T. Haumann revoked the licenses of fifteen local saloon keepers who are alleged to have been guilty of violating the midnight closing order.

The action of the mayor is said to have been prompted by the activity of brewery interests in connection with the recent election. A majority of the licenses revoked were held by dram shop keepers who have been arrested on a charge of keeping their places open on Sunday.

Dr. and Mrs. E. S. Murphy will leave in June for a western trip.

J. W. Johnson of Sterling was in this city Tuesday.

NOTICE OF PUBLIC LETTING.

Notice is hereby given that sealed bids will be received by the undersigned Road and Bridge Committee of the Lee County Board of Supervisors, at the office of the County Clerk of said County up to the hour of noon, Tuesday, June 1, 1915, for the contract for the filling to be done at the new McRoberts Crossing over the Chicago Northwestern Railway, about one mile west of the City of Dixon, in said County.

Each said bid is to be accompanied with certified check for \$300.00 made payable to Fred G. Dimick, County Clerk of said County. The successful bidder is to furnish bond in the sum of double the amount of his contract, conditioned for the faithful performance of the same.

Plans and Specifications for this work are on file in the office of the said County Clerk for the information of prospective bidders. The amount of earth to be put in place for Lee County is 8546 cu. yds., being 6486 cu. yds. in the approach on the northerly side of the railroad Right of Way, and 2060 cu. yds. in the approach on the southerly side of same.

Earth for said northerly fill can be had free at either the Dr. Ives or the Ben McWilliams gravel pit. For the said south fill, 1660 cu. yds. can be obtained from a cut in the roadway over the hill between the crossing and the Hill School House; the remaining 1600 cu. yds. from the said gravel pit strippings.

Bidders are requested to submit two bids in respect to the said south approach: one, the price per yard for material taken from the said gravel pit; the other, the price per yard for material taken from the said hill.

The south approach is to be a 5% grade, extending 325 feet south from said Right of Way. The north approach is a 6% grade.

The said approaches, when built to the grade and dimensions of the Plans, are to be macadamized after the best manner, with first-class limestone, broken to dimensions running from 1 to 3 inches, covered with screenings sufficiently to fill the voids, and rolled to the approval of said Road and Bridge Committee. The stone is to be spread to the width of 24 feet, 12 inches deep at the middle line and 9 inches at the side. Bids by the cubic yard are solicited for the said macadam work.

Payment for the work above advertised will be made in the following manner: When one-fourth of fill is made, 60% will be paid on the amount of work done; when one-half of work is done, 60% of said installment will be paid on the amount of work done; when three-fourths of work is done, 60% of said installment will be paid on the amount of work done; and when the fill is completed and accepted, by the Engineer and Committee in charge of said work, settlement will be made in full. None of payments will be made except on the estimate made by the Engineer in charge and approved by the Committee in charge of said work.

Said work must be completed by Oct. 1, 1915.

On said Tuesday, June 1, 1915, said bids will be publicly opened at the Lee County Court House at the hour of 1 o'clock p. m. and the contract awarded to the lowest and best bidder. The Committee reserve the right to reject any and all bids, and to advertise a reletting.

In connection with the foregoing work, a fill of 3853 cu. yds. is to be made upon the said Right of Way, and macadamized as above specified, for the said Railway Co. Dirt will be furnished for said fill from said Right of Way and within 1000 feet of the approaches. Bids on said railroad work are hereby invited, but will have to be accepted by the officials of the said Company.

Also bids are invited for the same time and place by the Commissioners of Highways of the Town of Nelson, said County and State, for taking from said hill some 2260 cu. yds. of material and placing same in a fill between the south approach, already specified, and the said hill. Plans for the said work are to be seen at the office of the Lee Co. Supt. of Highways. Each bid for this work will be accompanied with check for \$200, payable to the Town Clerk of the Town of Nelson, and the successful contractor will give bonds in double the amount of his contract.

Dated this 19th day of May, A. D. 1915.

RUSS AGAIN OCCUPY BUKOWINA'S CAPITAL

Austrians Lose on Front of 93 Miles; 20,000 Prisoners.

London, May 19.—The Austrian defeat in Bukovina was of such vast proportions as to more than offset the victory gained by the Teutonic allies in West Galicia, according to a Russian official statement contained in a dispatch from Petrograd to the Reuter Telegram company.

The Austrians are reported to have abandoned 20,000 prisoners in their flight and important positions organized on a front of 140 versts (ninety-three miles). The Russians claim to have occupied Czernowitz, and that the remnants of the Austrian army retreating in the direction of the Pruth are in danger of disaster.

Petrograd, May 19.—The Austro-Germans have again been halted in their advance on Permyl, according to dispatches received here. The enemy's losses in infantry engagements twenty miles north of the fortress were described in semi-official dispatches as "exceptionally heavy."

KAISER LOSES 2,000 AT YSER

French Report Many Prisoners and Guns Taken in Struggle.

Paris, May 19.—The French war office issued the following statement on the progress of hostilities:

"On the terrain west of the Yser canal taken by us yesterday and the day before the Germans left about 2,000 dead and a great number of rifles. In the engagements yesterday we made some further prisoners. East of the canal we have consolidated the positions recently taken by us. In the region north of Notre Dame de Lorette, on the road from Aix-Noulette to Souchez, we checked completely by our fire two other German counter attacks. As for ourselves we captured as a result of a night advance a group of houses near the cemetery of Ablain. Along all the front north of Arras the artillery fighting is continuing by day and night."

COTTON SHIPPERS PROTEST

Their Grievances to Be Taken Up With British Government.

Washington, May 19.—Interests of American cotton shippers are the ones chiefly involved in the questions arising with the British government in connection with its treatment of neutral commerce under her orders in council of last March.

It is being impressed on the administration that cotton is not one of the things that can be safely ignored by Washington and the indications are that in the not distant future some of the causes for complaint on the part of shippers will be taken up in the form of a note to the British government.

Preston Gibson Sued for Divorce.

Washington, May 19.—Preston Gibson, well known socially in New York and Washington, was sued for an absolute divorce by Mrs. Grace McMillan Gibson in the district supreme court in this city. A woman unknown to the complainant was named as the co-respondent.

GIRL SICK ON PICKLE DOCTORED TO DEATH

Everybody Soaks Her with Remedies until She Succumbs.

East St. Louis, Ill., May 19.—Miss May Glosscock, sixteen years old, died at her home, following an illness which began after she ate a pickle at a picnic Sunday. The physician who attended her said that her death was caused by trouble due to what she had eaten.

James Cummings, who escorted the girl to the picnic, said he obtained bromo seltzer for her when she became ill. The girl left her home after drinking a cup of coffee, it was said, and ate a pickle on her way to the picnic grounds at Fallings Springs. Then she became ill. After that she drank two bottles of lemon soda, then took a sedative.

Her illness grew worse and someone offered her a mustard tablet dissolved in water. On her way home she went to a drug store and the druggist prescribed Jamaica ginger with blackberry wine.

NEW USE FOR DISTILLERIES

Alcohol to Make Powder Is Ordered From Peoria.

Peoria, Ill., May 19.—The Great Western distillery has received a rush order for 30,000 barrels of alcohol to be used in the manufacture of gunpowder. The order is thought to be for the United States government.

The alcohol is to be distilled from grain which United States officials have declared officially to be superior for the manufacture of gunpowder.

Veteran and Wife Wed Fifty Years.

Virginia, Ill., May 19.—Charles Proster, a civil war veteran, and his wife, who were married here fifty years ago and have resided here continuously since then, celebrated their golden wedding anniversary. Descendants to the fourth generation attended. He is seventy-five years old and she seventy-two.

Alleged Son Contests Will.

Pana, Ill., May 19.—Another suit to break the will of Randall R. Gordon of Stonington, Ill., leaving \$70,000 to the First Christian church of St. Louis, has been filed here by Adolphus Scott Gordon of Decatur, who declares he is the son of Gordon.

He Wins Happy Home.

East St. Louis, May 19.—One week after Mrs. Mary Kessel, aged sixty-three years, keeper of a rooming house here, had said that she would get married if she could find a nice young man, she became the bride of Albert Ferris, aged twenty.

Third in Auto Crash Dies.

Windsor, Ill., May 19.—J. C. Renner, who was injured here when a Big Four train struck his automobile, killing two occupants, Mrs. Hannah Turner and Mrs. Emma Turner, instantly, died later. The fourth occupant of the automobile may die.

Town Asks County's Road Money.

Farmington, Ill., May 19.—Petitions are being circulated in Farmington township asking that the state money for hard roads be given to this township, instead of to the county, as the county voted to give it to Farmington.

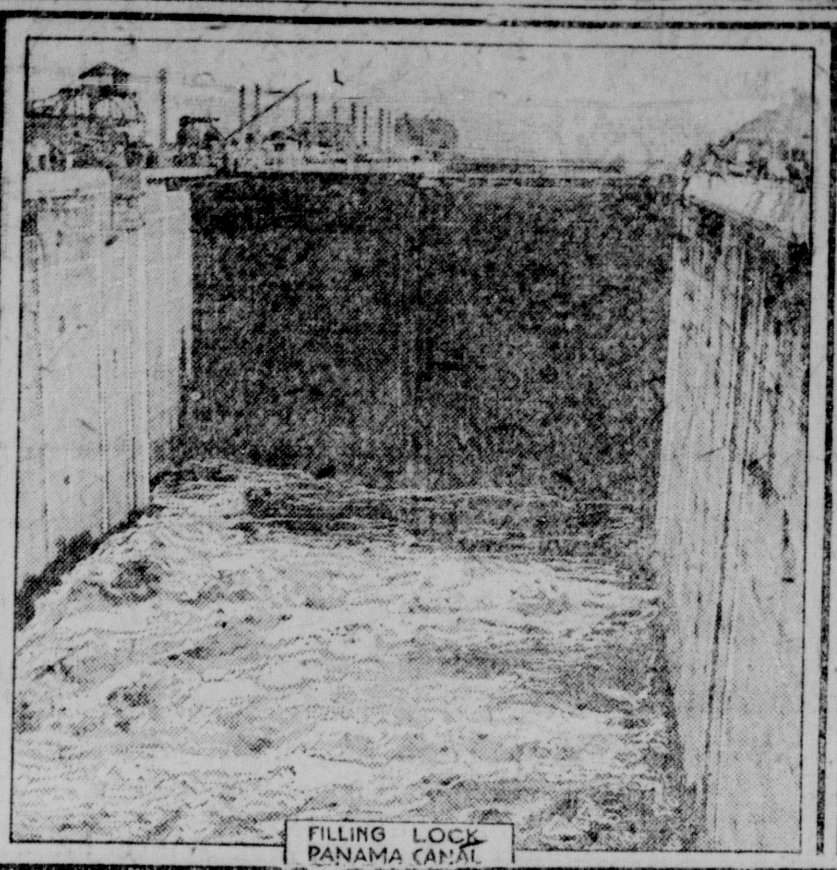

FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

IT'S SURPRISING

THAT SO MANY DIXON PEOPLE FAIL TO RECOGNIZE KIDNEY WEAKNESS

Are you a bad back victim? Suffer twinges, headaches, dizzy spells?

Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do.

Kidney trouble needs kidney treatment.

Doan's Kidney Pills are for the kidneys only.

Have convinced Dixon people of their merit.

Here's a Dixon case: Dixon testimony.

Kidney sufferers hereabouts should read it.

L. S. Fultz, Prop., of grocery store, 711 Depot Ave., Dixon, says: "Occasionally I get weak through my back and when I have such an attack Doan's Kidney Pills always relieve the trouble. They are an excellent medicine for kidney complaint and I highly recommend them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fultz had. Foster-Milburn Co., Props., Buffalo, N. Y.

SAYS NATION DAREN'T TRADE CIVIC HONOR

(Continued from Page 4)

great armaments of Europe today in involving hostilities a larger number of men and making armed conflict more bloody and more costly.

"In order to attain this end, it would be necessary to provide for the employment of three different kinds of agencies, which may be designated by the titles Arbitration, Conciliation Legislation.

"Arbitration represents the judicial process. As defined in the Hague Convention for the Pacific Settlement of International Disputes. International arbitration has for its object the settlement of differences between states by judges of their own choice, on the basis of respect for law. With the object of facilitating the immediate recourse to this process, the convention provided for the establishment of a 'Permanent Court of Arbitration, accessible at all times,' and proceeding in accordance with definite rules, for the establishment of another tribunal differently constituted.

"The fact is generally admitted that for the preservation of peace and order judicial methods will not alone suffice. Even though it be demonstrable that international arbitration may be carried, because it has been carried, far beyond the limits set in some of our general treaties of arbitration, it is nevertheless true that the judicial process is not adequate to all the needs of international life. It often happens that differences can be effectually adjusted only by the removal of their causes, and this may require the exercise of a power and discretion beyond the application of existing rules. The exercise of such a power would properly be vested in a tribunal of conciliation.

"In the formation of an international organization, provision for the rules of international intercourse would form an important and essential part. A step in this direction was taken in the Peace Conference at The Hague, but it fell far short of what is necessary to make the legislative process effective. This is particularly the case in respect of the power to enact rules of law. In The Hague Conferences unanimity was necessary to the establishment of a rule binding on all the powers; and even in the treaties relating to the conduct of war, it was provided that they should not be obligatory unless all the parties to the particular conflict had ratified them. It is probably true, that, if there were allowed to each independent state, as heretofore been done, a single vote, a mere majority rule would be quite unacceptable. While I am not so much disturbed, as many persons seem to be, by the apprehension that small states would not be found systematically to unite against larger states, yet the rule of a mere numerical majority of nations would necessarily meet with strong opposition. The requirement of unanimity must, however, be done away with before an international law-making power can be effectually established, and there should be no difficulty in abolishing it, when the principle, so essential to international organization, is once accepted, that no nation is so high or so powerful as to be above the law."

A Straight Vote.

The secret of the ballot is sometimes too good to keep. "George," said the squire, "did you vote straight, as I told you?" "Sure, Oid squire. It said on th' paper to put a X, but Oid moided as how ye said 'voat straight,' and Oid put un straight through un's naame."—London Spectator.

Recompense.

"Daughter, I saw you last night." "Yes, ma." "What induced you to give that young man a kiss?" "Well, he had listened to my singing patiently for an hour."—Louisville Courier-Journal.

Goose Liver Paste

Nothing new, but so much cheaper on account of the war in Europe that we are able to sell at a price that is in reach of all. It is used for sandwiches and otherwise as deviled and potted ham. It is said by those who have used it, to be very fine. It is put up in tins of not quite 3 oz. and sells for 15c. It formerly sold at 25c per can. Try a can and test its good qualities. This is once you have a chance to get something cheaper on account of the war.
